Valley City, ND

DURATION:
Summer Internship

IDEAL FOR:

- Fisheries & Wildlife
- Biology
- Environmental Science
- Science Education

THE INTERNSHIP

Join Valley City Parks & Recreation as an intern and play a key role in the Hidden Pond Trail development! This hands-on opportunity focuses on trail planning, native plant restoration, and environmental stewardship. You'll work alongside experts to improve public access, enhance biodiversity, and create a space for future generations to enjoy. If you love the outdoors and want to make an impact, this internship is for you!

ABOUT HIDDEN POND TRAIL

At the start of 2025, Valley City Parks & Recreation was gifted 4 acres of land to develop into an educational nature trail. The Hidden Pond Trail will highlight native plants, wildflowers, and wildlife while providing an inviting space for walking, learning, and exploration. Our vision includes updated pathways, interpretive signs, and restored natural habitats, creating a destination where the community can connect with nature.

HOW TO APPLY

Fill out our employment application and submit it to tylerj@vcparcs.com or drop it off at the Gaukler Family Wellness Center front desk.
